Thanks Linda and Gabriela for the info below and for today's meeting. If you also have any of the information that Dirk talked about re: how the 2013 NRC report will be used to reevaluate the pesticides under litigation, I'll put that into my write-up. Otherwise, I'll put in a placeholder. I hope to get something to you all in the next couple of days.

Thanks - Jenny

Hi Jenny – here's an email from Anita Pease of EPA HQ, provided additional information on your draft background document. Please let me know if you have any questions.

Thank you for the meeting today!

Have a great day!

Hi Anita and Mark -- several months ago, you reviewed a draft document, written by EPA Region 10's water program staff, regarding Oregon's Non-point Source Pollution Control Program/Coastal Zone Act Reauthorization Amendment (CZARA). Today EPA Region 10's water program again produced another document on the same topic (issue paper) for discussion.

Jennifer Wu plans to discuss her draft issue paper next week. If you have any suggestions on how to proceed, please let me know. Thank you in advance for your help!

Thank you!  
Linda

Hi Everyone,

For our Monday call, here are a couple of documents. The first is an issues paper in the format that our management asked for. It basically outlines options, but I'd like for us to come up with a recommendation if possible. Or in the very least, we can better vet the issues. The second is just some background info that might be helpful. It has a timeline of CZARA and litigation actions and could be helpful for our talk on Monday.

Thanks, Everyone.
